

Kyle Spencer

graphic design • animation • character design

American River College

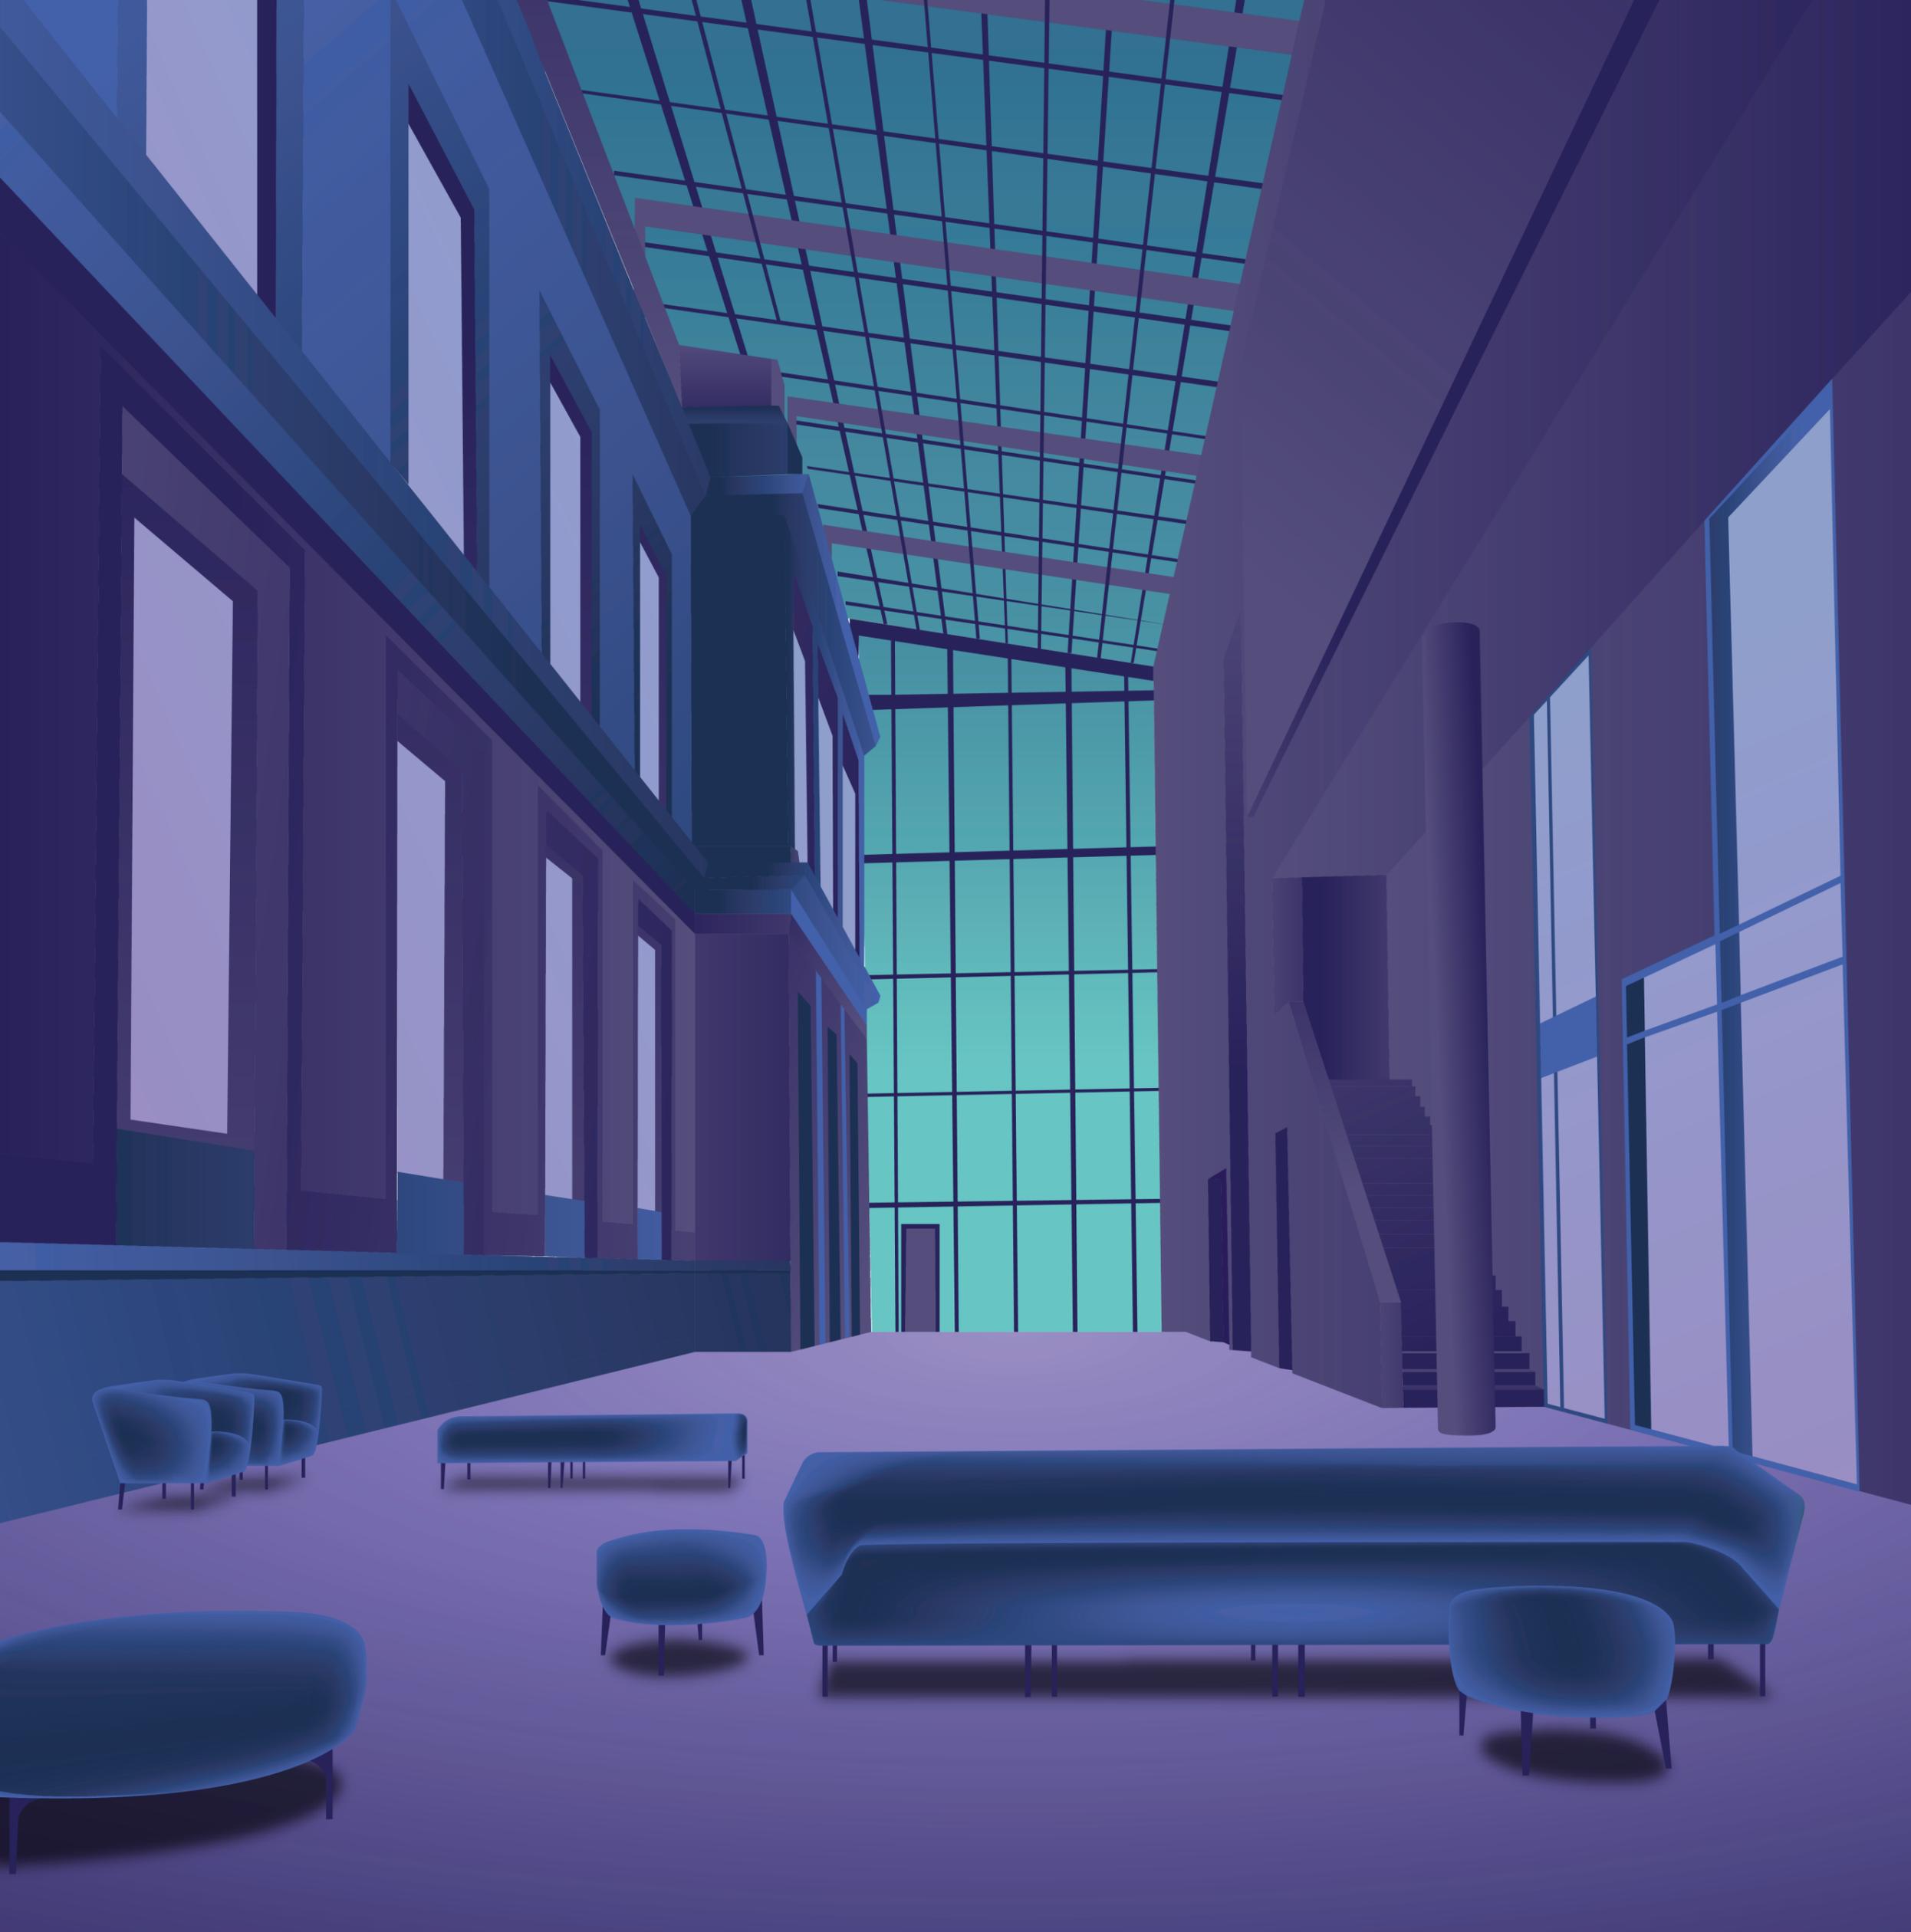

years 2015 - 2016

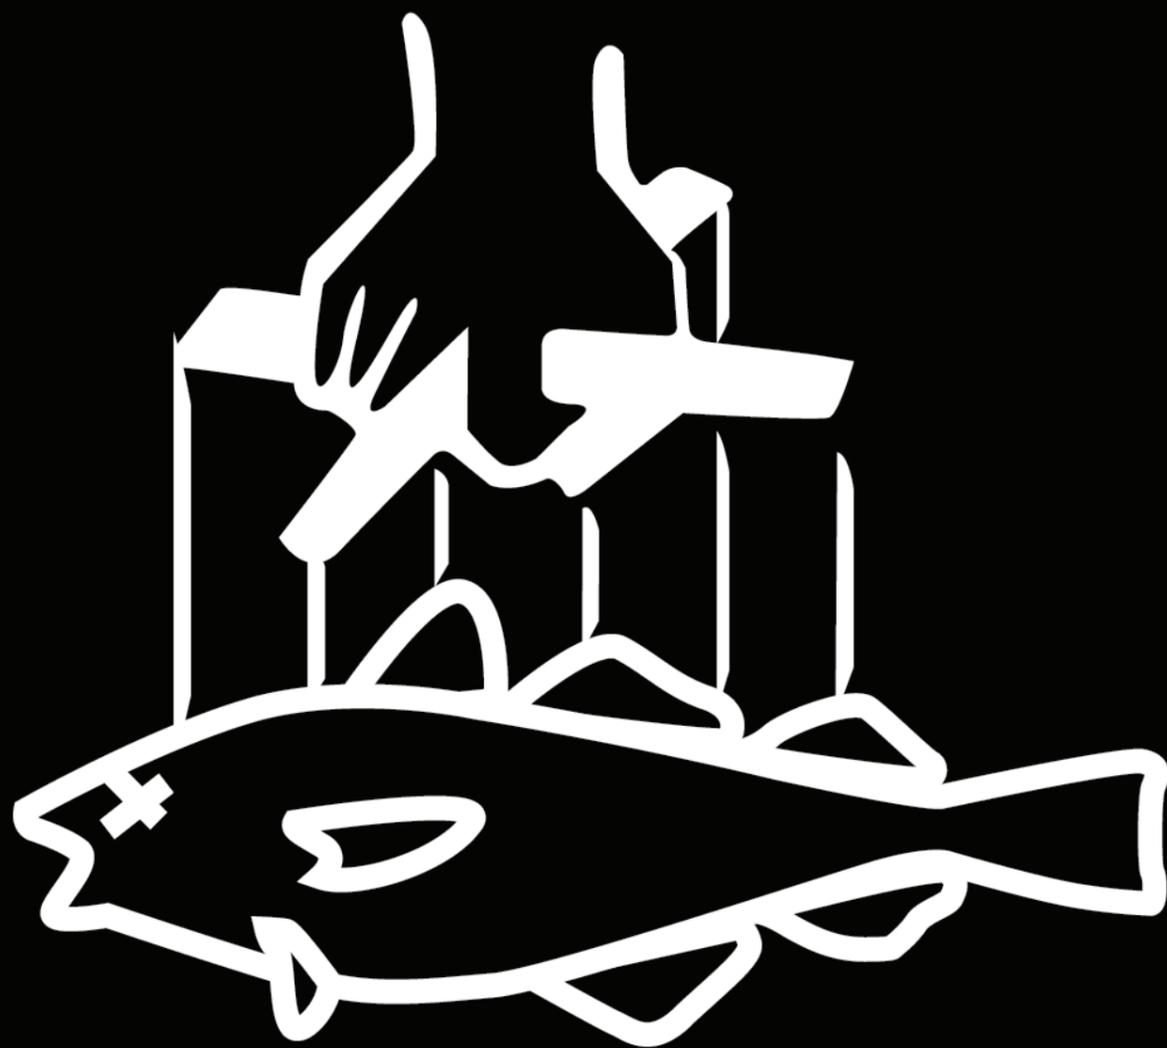

About Me

My name is Kyle and my artistic passion is in film and animation. My educational goal is to achieve my BFA in animation. In the meantime, I am actively pursuing freelance work to boost my growing portfolio. My dream is to one day work on a AAA video game or a big budget film. While I have a passion for video games and film, I have an equally strong interest in space, sci fi, and retro-futurism. Some of the art you will see in this portfolio will demonstrate that very clearly. I love the 50s and 60s pop-art style and it strongly influences me as an artist.

Thank you for taking the time to view my portfolio.
