

# Chapter 7 Objectives

## PSYC 356

---

1. Explain 6 key tasks that young adults face as they develop their sexuality.
2. Contrast models of sexual orientation, including the Klein Grid.
3. Explain why it's difficult to know the exact numbers of men and women who identify as heterosexual, gay, lesbian, bisexual, or transgender.
4. Describe Cass' model for establishing a gay or lesbian identity.
5. Contrast the experience of forming a gay/lesbian identity to forming a bisexual identity.
6. Discuss the experience of LGBT men and women of color.
7. Discuss the factors that have contributed to increasing acceptance of cohabitation.
8. Describe 3 developmental issues that appear during middle adulthood.
9. Evaluate sexual frequency and satisfaction during middle adulthood.
10. Evaluate the impact of divorce.
11. Discuss the effects of health and partner availability on sexuality in late adulthood.
12. Discuss stereotypes and attitudes associated with aging as experienced by heterosexual men and women, and gays and lesbians in late adulthood.
13. Discuss menopause, including its symptoms and effects on sexual expression.
14. Evaluate Menopausal Hormonal Therapy (MHT).
15. Discuss men's issues with aging and how they affect sexual expression.
16. Evaluate testosterone supplementation.
